COSMOS

"SEVEN ZONES TO CONQUER THE COSMOS"

"THE ULTIMATE CHALLENGE OF SPACE"

"48 DIFFERENT SECTORS"

Travel the Galaxy destroying extra terrestrial beings and space craft as you pass through numerous sectors. Refuel to continue your space journey.
When you run into difficulties you activate the warp drive to go to light speed, but remember your engines can only survive eight seconds. Your on-board computer relays fuel status, power levels, and exits from light space messages to you as you progress.

COSMOS. . . Just one of the CVS library of games.
